Objective

To start my career in IT Infrastructure and Networking by applying my knowledge in Linux, Networking, and Windows system administration, along with hands-on experience in network security and monitoring tools.

Education

Bachelor of Technology (Computer Science and Engineering)

Pace Institute of Technology and Sciences, Ongole
CGPA: 7.8/10

2022 – 2026

Intermediate (MPC)

Sri Chaitanya Junior College, Ongole
Percentage: 83.2

2020 – 2022

SSC

Sri Sai High School, Ongole
Percentage: 99

2019 – 2020

Technical Skills

Operating Systems:

Linux (Kali Linux, Basic Commands, File Permissions, Process Management)
Windows (System Configuration, User Management, Basic Troubleshooting)

Networking:

TCP/IP, OSI Model, DNS, HTTP/HTTPS
Hands-on with Nmap (Port Scanning), Wireshark (Packet Analysis)

Security & Tools:

Nmap, Wireshark, Kali Linux, Zphisher (Lab Practice)

Programming:

C, Python, Core Java

Database:

MySQL

Certifications

- Network Security — Palo Alto (2025)
- Cybersecurity Fundamentals — CyberFrat (2025)
- Python Programming — HackerRank (2025)
- Java Programming — HackerRank (2025)

Internships

- Completed a three-week internship on HTML, CSS, and JavaScript conducted by 42 Learn and developed a mini project on a Car Dealer Website.
- Completed a three-week internship on Full Stack Development with Java conducted by CodeTantra.
- Attended a one-week hands-on Cybersecurity Workshop.

Projects

Network & Security Lab Practice

- Performed network scanning using Nmap to identify open ports, services, and potential vulnerabilities.

- Captured and analyzed live network traffic using Wireshark to detect unencrypted communication and insecure protocols.
- Understood TCP/IP packet structure and real-time data flow in networks.
- Conducted phishing attack simulations using Zphisher in a controlled lab environment to study attack vectors.
- Gained hands-on experience with Linux-based tools and basic network troubleshooting.
- Tools: Kali Linux, Nmap, Wireshark

Secure Table Reservation System

- Developed a secure system allowing staff and administrators to manage restaurant reservations efficiently.
- Implemented cybersecurity techniques such as password hashing, data encryption, and role-based access control.
- Technologies Used: Core Java, JDBC, MySQL, AES Encryption, Hashing

Achievements

- Awarded Elite + Silver certification in IoT (NPTEL) for ranking in the top 10.
- Won Technical Quiz organized by ACM in 2024.
- Served as Class Representative (2022–2023) and promoted teamwork and collaboration.

Hobbies

- Listening to Telugu melody songs
- Creative mobile photography
- Pencil sketch drawing
